The Experience

Have you ever been intrigued by the world of espionage...? Do you think you would make a good international agent? Then this is the experience for you!

Learn some essential skill required to conduct a secret agent operation, such as gaining knowledge in specialist spy equipment including covert cameras and radios, bugs and listening devices.

Having been taught how to use a pistol, the Secret Agent's personal weapon, your skills will be put to the test with quick-draw techniques and contact drills. Approach and advance through the Close Quarter Battle area with caution, apply precision shooting through the powerful telescopic sight of the sniper rifle, and test your expertise at axe throwing.

A harmless shoot-out with the hi-tech laser combat system is utilized to practise "fire and manoeuvre" and gets that adrenaline pumping. When the bombs and bullets run out our instruction on unarmed combat techniques will prove useful when cornered by enemy agents!...
